There is a fuel depot located at Bascov, seven kilometers north of Pitesti. This depot is fenced off by a double barbed wire fence and consists of twelve large underground cement tanks, rectangular in form, with the following dimensions: 30 by 18 meters, 12 meters in depth. The fuel is brought into the area by means of railroad tank cars.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
